Araiz Khan

Full-Stack Developer · AI Integration · Next.js · MongoDB · Python

+92 339 3939399 araizkhaan@gmail.com Lahore, Pakistan LinkedIn · Portfolio · GitHub

BS Computer Science graduate with proven internship experience. and a published Final Year Project in AI-driven web development. Built and deployed full-stack applications using Next.js, MongoDB, Python, and custom AI model APIs. Comfortable across the stack from debugging production issues to optimizing AI response times. Fast learner in MVP-focused, sprint-driven environments.

EXPERIENCE

Web Developer Intern · Procon Engineering (Pvt) Ltd. *Dec 2025 – Mar 2026*

- Architected and deployed an internal inventory tracking dashboard using React and JavaScript, streamlining factory floor component logging and reducing manual data entry overhead.
- Integrated RESTful APIs to bridge the React frontend with the company's internal MySQL database, enabling real-time parts availability updates across the warehouse.

PROJECTS

Fashion Frenzy (Final Year Project) *Next.js · MongoDB · Diffusion-VTON · Netlify*

- Co-developed and shipped a full-stack AI web application enabling users to virtually try on outfits by integrating a Diffusion-based Virtual Try-On (D-VTON) pipeline.
- Reduced AI generation latency to **11–14 seconds** by optimizing the asynchronous API layer, connecting the model endpoint with a Next.js frontend and MongoDB backend.
- Assured end-to-end system reliability by implementing rigorous unit, integration, and performance testing for JWT authentication, image payload constraints (PNG/JPEG - 5MB), and the AI pipeline.

Vehicle Detection System *Python · Computer Vision · AI · YOLOv8*

- Built a vehicle detection system using YOLOv8, training a custom model over 10 epochs (~2.5 hours of training time) to identify and classify vehicles from traffic imagery input.

Personal Portfolio Web App *Next.js · Tailwind CSS · Firebase Firestore · Vercel*

- Built and deployed a personal portfolio showcasing projects and skills, with Firebase Firestore integration for dynamic content management, hosted on Vercel.

EDUCATION

Bachelor of Science in Computer Science *2022 – 2026*

Superior University, Lahore

SKILLS

Languages	Python · JavaScript · Java · C++ · SQL
Web	HTML · CSS · React · Next.js · Tailwind CSS · Node.js
AI / ML	Computer Vision · YOLOv8 · Diffusion Models (D-VTON) · Custom Model APIs
Tools	Git · VS Code · Firebase · Cursor · Copilot · Netlify · Vercel
Databases	MongoDB · MySQL · Firebase Firestore

CERTIFICATIONS

Google Ai Essentials -- Google (Coursera), Jun 2026

Artificial Intelligence -- Superior University, Apr 2025

Intro to SQL -- Superior University, May 2024
